

JOHN BARRETT

MARKETING STRATEGY & OPERATIONS

Pittsburgh, PA • 412-999-4008 • johnpatrick628@gmail.com • linkedin.com/in/johnpatrickbarrett

Systems-oriented marketing strategist who turns unclear business problems into practical programs, clearer processes, and measurable results. Experience spans campaign strategy, CRM administration, automation, segmentation, analytics, content development, trade-show support, and cross-functional execution.

SELECTED CURRENT IMPACT

92	14-15	300+	2.5×
direct leads generated Q2-Q4 2025	average monthly leads including NACS, full year	lost audience segments rebuilt in the new system	indexed growth in the reachable contact base since 2022

PROFESSIONAL EXPERIENCE

Petrosoft | Marketing Specialist | [Feb 2022–Present](#) | Pittsburgh, PA

- Built and managed a coordinated marketing program spanning prospect education, product and customer communications, trade-show outreach, re-engagement, sales follow-up, and long-term nurture.
- Created a reply-driven campaign after recognizing that some prospects preferred answering a person to clicking a landing page. Personalized versions commonly achieved 40–50% opens, with some targeted sends reaching 60–70%, and produced roughly 10–20 leads per campaign versus 1–2 from a typical graphical send.
- Met the lead-generation target after it was introduced, producing 92 direct leads from Q2-Q4 2025 (10 per month) and approximately 14-15 leads per month across the full year when NACS leads are included. Continued improving performance into 2026, with YTD email-generated MQLs up 41% through June.
- Expanded the usable marketing audience through CRM cleanup, segmentation, event-data processing, and contact enrichment; the indexed email-addressable contact base is approximately 2.5 times its 2022 starting level.
- Protected marketing continuity during the move away from Dynamics outbound marketing: identified the risk early, planned the transition, rebuilt more than 300 lost segments, and moved campaigns into real-time journeys within a limited deadline.
- Developed audience-specific content systems, KPI reporting, dashboards, HTML emails, animated creative, and sales-process documentation. Built disqualification journeys covering the majority of SDR follow-up scenarios.
- Designed an AI-assisted content and response workflow for an indefinitely renewable reply-back program. The system is being trained on two months of human-written responses before controlled testing and launch.

United Remediation Technology / UniRem | Marketing Manager | [Aug 2019–Present](#) | Pittsburgh, PA

- Modernized technical product communications for environmental remediation and marine products, translating complex performance claims into clearer brochures, video, web, sales, and distributor materials.
- Rebuilt the BioSok brochure around a simpler visual hierarchy and practical customer questions, replacing dated copy and imagery while preserving the product's technical credibility.
- Rescued a difficult customer testimonial recording by restructuring the narrative, removing low-value material, adding subtitles, proof images, and B-roll, and producing a credible finished video from limited source footage.

ADDITIONAL EXPERIENCE

MrTakeOutBags / Babcor Packaging | Marketing & Operations | Sep 2021–Jul 2022

- Supported sales, product marketing, e-commerce content, customer communications, and operational projects for foodservice packaging businesses in a fast-moving small-company environment.

UCode / DaVinci Innovation Labs | Academic Director & Operations Analyst | Dec 2017–Aug 2019 | Ithaca, NY & Singapore

- Built the financial model used to forecast cash flow, staffing, enrollment, and revenue growth for a new flagship technology-education center and support investor discussions.
- Led the location from planning through launch: conducted market and site analysis, supported lease negotiations, coordinated architectural design and construction, developed the academic structure, and established daily operating processes.
- Served as the sole on-site leader after launch, managing programming, staff, families, and day-to-day operations while reporting to company ownership overseas.

Earlier Experience | Business Research & Transformation Internships | 2014–2016 | China

- At Seedlink Technology, researched competitors, growth paths, and exit strategy considerations for a SaaS startup and its investors.
- Across two PwC China internships, supported an SAP transformation for a nuclear-energy client and built a cross-team budget tracker that identified approximately \$40,000 in savings; trained project staff to use it.

CORE CAPABILITIES

- | | |
|---|--|
| • Marketing strategy and campaign architecture | • CRM administration, segmentation, and data quality |
| • Marketing automation and lifecycle programs | • Analytics, KPI reporting, and experimentation |
| • Audience research, positioning, and messaging | • Email, HTML, visual design, and motion creative |
| • Trade-show marketing and contact enrichment | • Cross-functional process design and documentation |
| • AI-assisted content systems and workflow training | • Video editing, presentations, and sales enablement |
